

**Plant theft costs the construction industry £650 million each year. Dealing with theft costs us time, money and is inconvenient for us and our suppliers. Help us fight the thieves by being proactive.**

**Think about these tips when you leave at the end of the day:**

### **Airmasters**

- Remove ignition key
- Turn steering to full lock
- Once engine has stopped turn compressor on
- Leave machine in forward gear
- Lock door
- Fit or activate any security device supplied

### **Compressors**

- Park machine between larger equipment
- Fit or activate any security device supplied

### **Dumpers**

- Remove ignition key
- Turn steering to full lock
- Remove battery isolator key if fitted
- Leave machine in a forward gear
- Fit or activate any security device supplied

### **Telehandlers**

- Remove ignition key
- Turn steering to full lock
- Leave machine in forward gear
- Lock door
- Remove battery isolator key if fitted
- Fit or activate any security device supplied
- Leave boom extended above height of cab

### **2CX & 3CX Excavators**

- Remove ignition key
- Turn steering to full lock
- Remove battery isolator key if fitted
- Leave machine in a forward gear
- Lock door
- Place dipper at full extension 90 degrees away from machine
- Place front shovel or dipper over other equipment i.e. small plant, buckets, hide attachments
- Fit or activate any security device supplied

### **Tracked Excavators**

- Remove ignition key
- Place dipper at full extension 90 degrees over side of track
- Move throttle to zero position
